## **Eisai Inc. Corporate Backgrounder**

### ***Company Overview***

- Eisai Inc. is a U.S. pharmaceutical subsidiary of Tokyo-based Eisai Co., Ltd., a research-based *human health care* company that discovers, develops and markets products in more than 30 countries.
- Eisai Inc. draws on the research and development strength of its global parent company. Research efforts are focused on several therapeutic areas, including neurology, gastrointestinal disorders, oncology and acute care.
- Established in 1995, Eisai Inc. began marketing its first product in the United States in 1997 and has rapidly grown to become an integrated pharmaceutical business with sales of approximately \$2 billion in fiscal year 2004 (year ended March 31, 2005).
- Eisai employs over 7,700 people worldwide, with approximately 1,100 employees in the U.S.

### ***Human Health Care (hhc) Mission***

- Through its *human health care (hhc)* mission, Eisai strives to achieve its goal of developing specialty products that satisfy unmet medical needs and increase benefits for patients and their families. Eisai seeks innovative solutions in disease prevention, cures and care for the health and well-being of people worldwide.
- The *hhc* mission governs the way Eisai conducts business. It is a key component of the company's approach to research, product development and employee training.
- The *hhc* symbol is derived from the signature of Florence Nightingale, a famed health care pioneer. Eisai is inspired by her legacy of devotion to caring for others and attention to the needs of her patients.

***Neurology***

Eisai is dedicated to the treatment of neurological disorders. Epilepsy is one of the most common neurological disorders, affecting 50 million people worldwide and 2.5 million in the U.S. alone. Eisai dedicates a significant portion of its resources to the advancement of a comprehensive epilepsy portfolio, comprised of Zonegran<sup>®</sup>, Cerebyx<sup>®</sup> and other epilepsy products in development.
